History of Hong Ding textile

1994

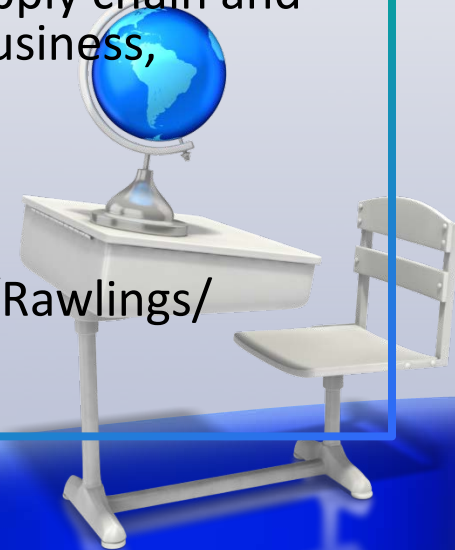

Hong Ding's parent company Chun Ji fiber co. Ltd. was founded, marketing greige for apparel, bedding and pillow, home decor and military uniform application and so on. Till today, Chum Ji fiber is still the no.1 staple greige turn over volume supplier in Taiwan. Besides that, we also provided dyeing and multi finish service to the cooperation exportation customer if needed.

2012

Due to Taiwan textile industry transforming to focus on functional fabric development, we established Hong Ding textile to integrate supply chain and create the line for synthetic woven/Knitting functional fabric business, especially in Nylon, stretch and eco-friendly fabric.

2015~2024

Has been gradually in the supply chain of Abercrombie & Fitch/Audimas/Carhartt-WIP/Cutter&Buck/Herschel/Merrell/Rawlings/Saucony/Sunice/Sherpa/TOG24/SWIX/Wolverine

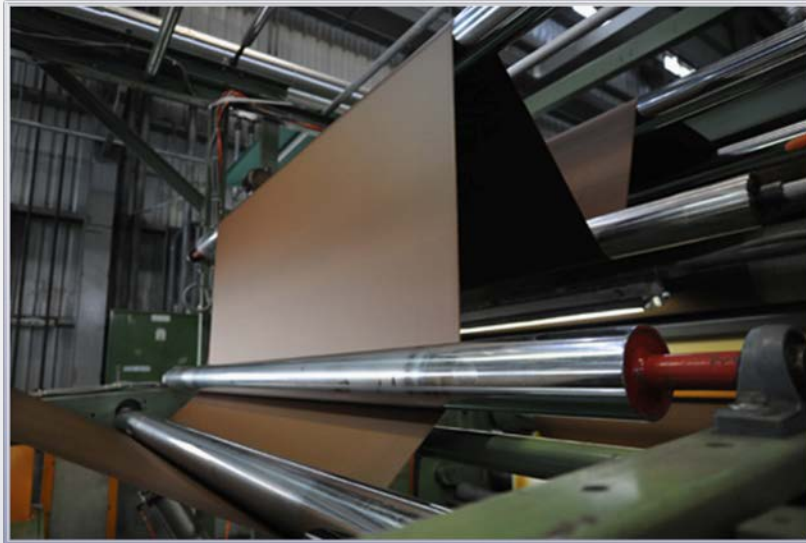

•Hong Ding textile

Information of the factory

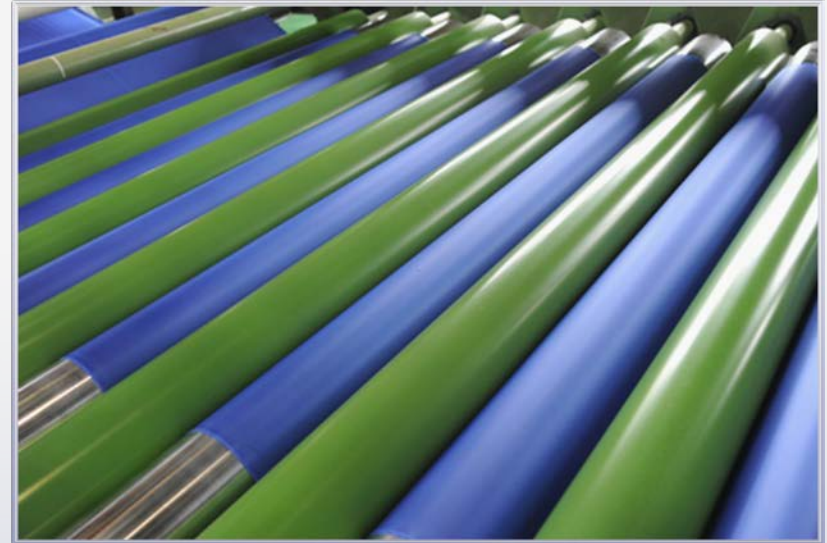

- ❑ Location: Taiwan
- ❑ Capacity : 2.0 million yards/month
- ❑ Product line : Both synthetic and staple fiber woven/knitting fabric including 100% Recycle Polyester, 100% Recycle Nylon, Recycle T/C, CVC, N/C, C/N or N/T etc.
- ❑ Specializing in Nylon material with 2/3 layers finish, also special functional yarn application such as Anti-UV/Anti-UV/graphene yarn, etc.
- ❑ Finishing process : cire, coating, bonding, laminating, embossing, printing including wet/sublimation/reflective, sanding, brush and so on

Mill Equipments – Finish

• **Cire**

• **Coating**

• **Bonding**

• **Lamination**

Lab capability

01. Dye master
02. Dispenser
03. Color spectrophotometer (Data color)
04. IR dyeing machine
05. Glycerin dyeing machine
06. CF to washing machine
07. Home laundering
08. Drum dryer
09. Dryer
10. Padder
11. Mini-tenter
12. Water repellence
13. Square-meter tester
14. CF to Perspiration tester
15. CF to Crocking tester
16. Tearing tester
17. Elongation & Tensile
18. Rain tester
19. Water vapor permeable tester
20. Hydrostatic pressure tester
21. Pilling tester
22. Snagging tester

Product introduction

- ❑ Ultra Light Weight
Mélange
- ❑ Stretch with spandex
or mechanical stretch
yarn
- ❑ Maxproof
- ❑ Maxprotect
- ❑ Special Finish
- ❑ Medical application

Ultra Light Weight

Items:

- 10D, 15D & 20D (recycle yarn)
- 2/ 2.5/ 3 Layers
- Different Construction
- Different Finish
- Nylon light weight Stretch for P.R.T. and down proof

**Ultra Light
Weight**

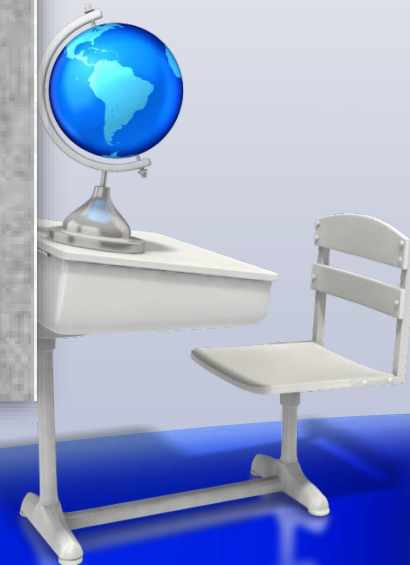

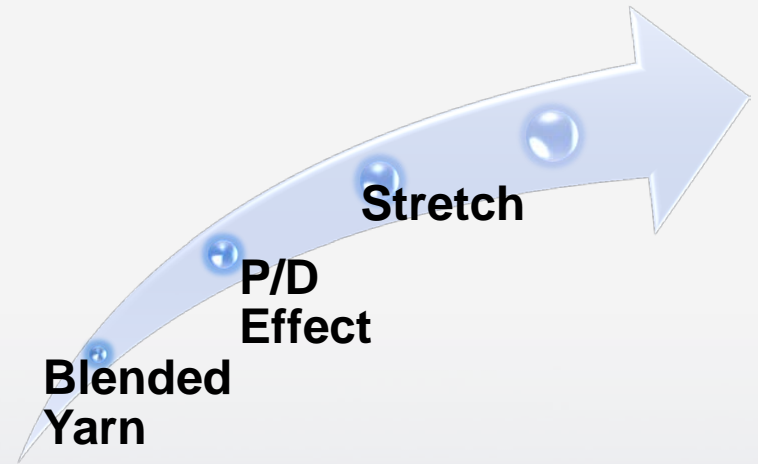

- Jet Dyed
- Beam Dyed

Melange

Items:

- Wool Like and Denim Like
- Different Construction/ Weight
- Bonded, Coating & Lamination

Stretch

Items:

- Nylon light weight Stretch
- Double-weaving stretch to Pass rain test
- Special yarn application, like Sorona, side by side, HCR
- Stretch item for down proof application
- Recycle mechanical stretch yarn

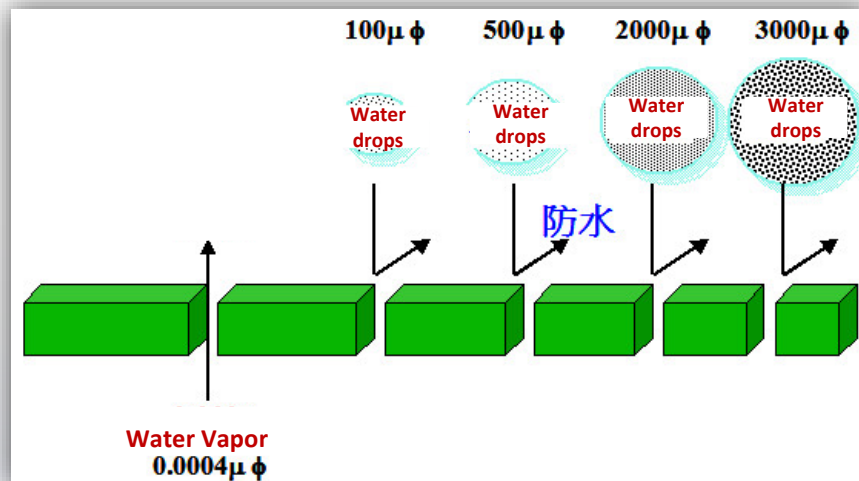

Stretch

- Mechanical Stretch
- Spandex Stretch

Maxproof & Maxprotect

Items:

- Soft & Comfortable Hand feel
- Waterproof, Windproof & Snowproof
- Excellent Breathability
- Light Weight & Easy Care
- UV Cut
- Anti-Bacteria

UPF Rating	UV Protection
UPF 10 ~ 19	Normal Protection
UPF 20 ~ 29	Good Protection
UPF 30 ~ 49	High Protection
UPF 50+	Excellent Protection

Special finish

Items:

- 3/2.5/2 Layers
- Dissolvable polyester stretch
- Luminous print
- Reflective printing
- Innovative printing tech such as graphene/coffee charcoal
- Reflect UV Ray; Anti bacterial yarn; Heat Shield PET yarn

• Medical application

ITEMS:

- Patient Gown
- Nursing Gown
- Protective jacket (<https://www.youtube.com/watch?v=0ail7ekZL1U>)
- Medical grade air mattress. e.g.: home nursing, elderly centers, patient beds and hospital beds

Thank You!
