JACQUARD

We specialize in the production of top-quality jacquard ribbons. Thanks to the combinations of different yarns woven together we can reproduce logos and patterns with an infinite number of effects.

Soft touch on the skin, premium certified materials, strength and long-lasting stretch are the key elements that make our elastic perfect for your underwear garments!

SILICONE APPLICATIONS

Silicone applications are an important touch for your technical and sport apparel. We can reproduce logos and patterns for functional and customized elastic bands.
