# INTRODUCE

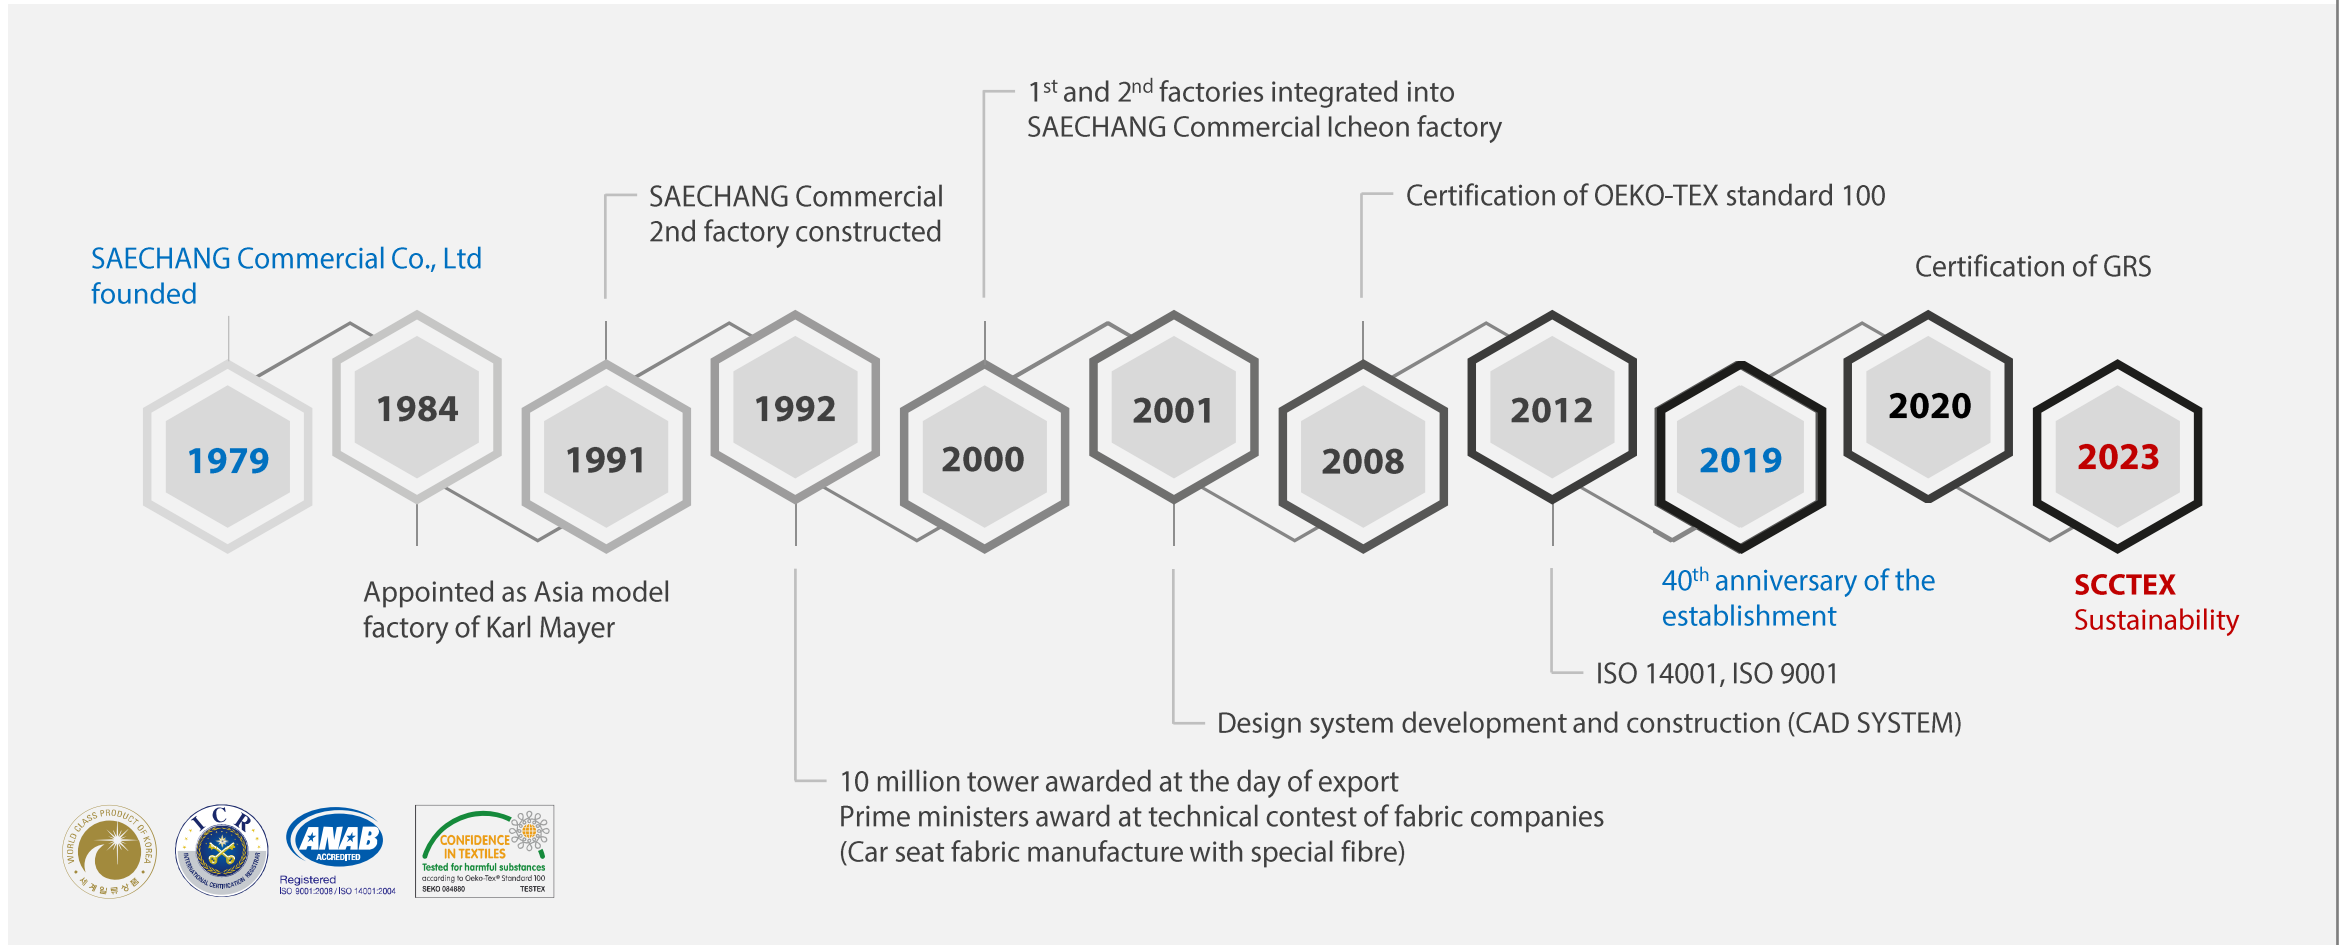

*SAE CHANG COMMERCE (SCC) is a Korea based manufacturer of knit textiles founded in 1979.*

SCC factory located on the outskirts of Metro Seoul was built on the foundation of environmental and social sustainability from its very beginning. Its production runs in dust-free, pristine factory condition and its facilities are nestled in parklike surroundings.

Its founder, C.K. Lee planted hundreds of pine trees around the factory to help sustain a clean environment. SCC's state-of-art spinning and warping machines from Karl Meyer, Germany are regularly maintained by technicians from Karl Meyer or certified SAECHANG technicians who completed the manufacturer's training courses at its international locations.

# TIMELINE

# WHY SAECHANG?

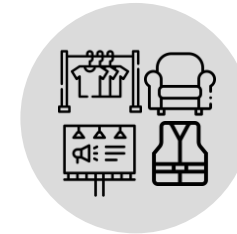

**Own factory**

**Cooperation  
among employees**

**Cost

**Trust between  
Supplier and Customer**

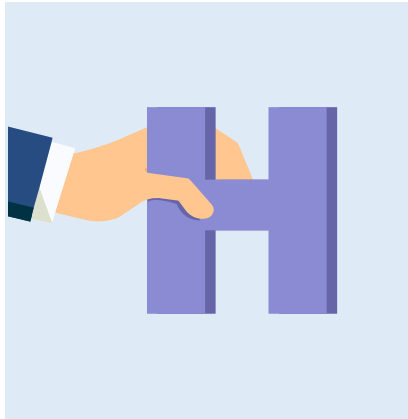

# VISION

## INNOVATION and **SUSTAINABILITY**

*With innovation and sustainability as our founding pillars, the passion of C.K. Lee SAECHANG Commerce in 1979 which became a role model in the Korean textile industry for three decades.*

Today SAECHANG Commerce continues to lead sustainability in the production of warp knits and performance fabrics in Korea partnering with some of the largest global leaders in the industry: Gore-Tex, Dupont, and Karl Meyer. We strive to bring innovative and sustainable solutions to our partners and together we create a lasting positive impact on our environment.

# CORE VALUE

## HARMONY

We promote inclusivity and create meaningful connections to share goals and accomplish mutual growth

## EDUCATION

We believe in constantly educating and empowering our staff to promote individual and collective growth. Our product development is based on the continued learning of what is new and current in the textile industry

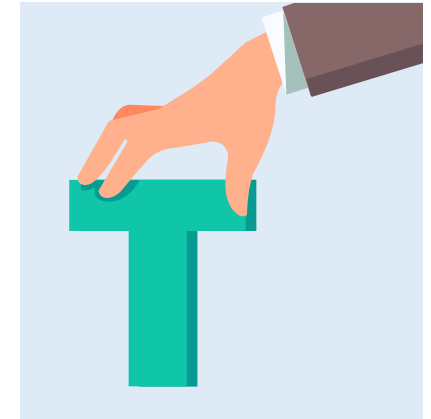

## APPRECIATION

We recognize appreciation is part of the vitality of relationships and vital relationships are the foundation of our company. We recognize contribution and partnership as these produce the best that our company has to offer.

## RESPONSIBILITY

We share accountability and acceptance of personal responsibility in all business dealings and decision-making. We lead by example; we are accountable and take ownership; we bring solutions not problems.

## TRUTH

We recognize honesty is the base foundation when building relationships with our customers. We conduct business practices honestly and truthfully

# MAIN ITEM

## ECO WARP KNIT

**SAECHANG ECO WARP-KNIT fabric** has the structure of a woven, but with an immense capacity for omnidirectional motion powered by Dupont Sorona crimped, spring like yarns that stretch without wearing out or breaking down.

## PERFORMANCE

**SAECHANG PERFORMANCE fabric** offers high elasticity while providing dimensional stability for enhanced comfort and agility.

## HIGH FASHION

**SAECHANG HIGH FASHION fabric** offers wide selections of velvet, stretch velvet, crushed velvet, velour, velboa, engineered 3D fleece, micro suede, etc.

## INDUSTRIAL

**SAECHANG INDUSTRIAL fabric** offers wide selections of non-apparel fabrics for industrial applications including home textiles, sign fabric and automotive.

# ECO WARP KNIT

## COMFORT STRETCH

Comfort stretch is eco-friendly using a crimped yarn that replaces spandex. It has natural elasticity. It can be used in casual wear, active wear, suiting, swim wear.

## MONO FIBRE BLEND

ECO WARP-KNIT is made in Polyester using DTY full dull yarn and Dupont SORONA Crimped is stretch and recovery well without using Spandex. Because it is 100% polyester, it can be recycled if it has at the end of its lifecycle.

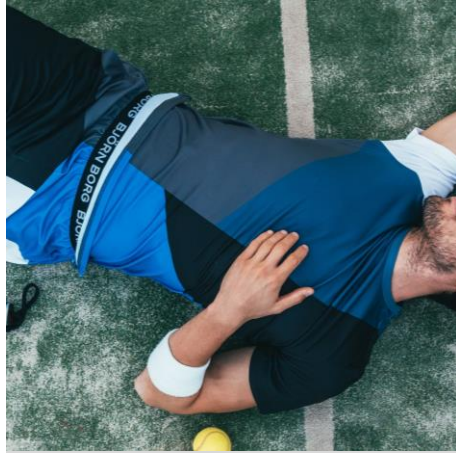

## POLY CELLULOSE BLEND

ECO WARP-KNIT with poly cellulose blend is made in Polyester using DTY full dull yarn and plant based viscose, such as Modal, Acetate, and Lyocell to enhance surface texture, hand-feel, and performance.

## OCEAN HARVESTED

Unlike ubiquitous recycled polyester that is created by the recycling of plastic bottles on terra rma, ECO WARP-KNIT with ocean harvested is derived from plastic waste recovered from the ocean bed.

## COMPRESSION

SAECHANG PERFORMANCE fabric with compression offers a highest elasticity and contraction for shapewear application. These fabrics prove a super firm hug to help sculpt the body shape.

## ANTI-CHLORINE

SAECHANG PERFORMANCE fabric with anti-chlorine is made with chlorine resistant spandex for swimwear applications.

## VARIOUS PRINTED FABRIC

SAECHANG has a wide range of printing techniques. Especially, SAECHANG PERFORMANCE fabric with foil print adds stunning visual attention to the surface while providing the high level of performance, dimensional stability, comfort and support.

HIGH  
FASHION

## VELVET

Offering diverse velvet options including velour – made from polyester and spandex, this material contains a fantastic amount 4-way stretch, a fabulously rich sheen, and an unbelievably soft hand. Partnering with NAIA, SAECHANG now offers crushed velvet made partially with acetate to offer more sustainable velvet options.

## 3D FEELECE

SAECHANG offers 3D engineered fleece fabrics. From simple microfiber fleece to highly decorative Velboa, SAECHANG delivers customizable fleece options for the client's design, performance, and sustainability needs.

## MICROSUEDE

SAECHANG offers various Microsuede options. These look like genuine suede leather but are more resistant to wear and stains.

# INDU ST RIAL

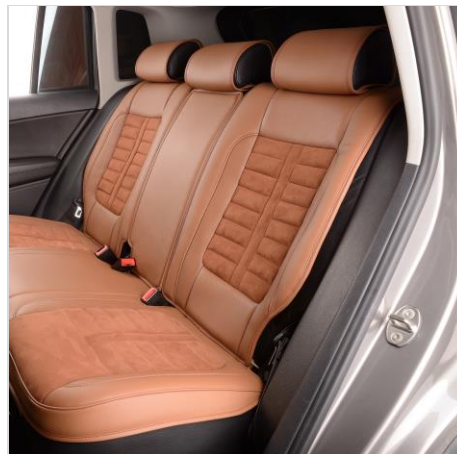

## HOMETEXTILE

SAECHANG HOME TEXTILE fabrics provide extended surface design & sustainability options including GRS certified polyester, ocean-harvest nylon from fishing nets and/or waterless dyeing.

## SIGN FABRIC

SAECHANG SIGN FABRIC is wrinkle free and it doesn't untangle. Because there is no pin hole, light is not transmitted and print is well implemented, so it shows vivid look.

## AUTOMOTIVE

SAECHANG AUTOMOTIVE fabrics offer various design and sustainability options to support client's brand needs.

# R&D

## | RESEARCH & DEVELOPMENT

SAECHANG operates a fabric research facility to analyze the properties of fabrics. An institution has been established for further development and manufacturing of fabrics. SAECHANG continues to work diligently to fulfill the needs of customers. To keep up with current trends, SAECHANG works closely with textile and fashion designers to offer trendy colors and patterns.

## | SUSTAINABILITY

SAECHANG is environmentally friendly enterprise, so we make Recycled fabric that is use of recycled yarn. Also, using Acetate, Modal, Tencel, Crimped yarn, we think future and want to build future together. SAECHANG develop actively natural fabrics because we put a value on Eco-friendly and sustainability.

# FACILITY

## | FACTORY

SAECHANG has largest Tricot product line in Korea. Also, we are effort to manage production and product control. Constantly changing the newest knitting machine, now we have 32 warp – knitting machines and 14 warping machines.

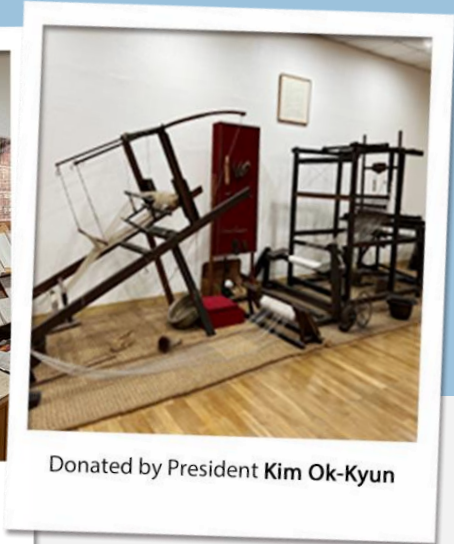

ITEM	MACHINE TYPE	NUMBER	TOTAL	MACHINE MADE BY	WARP-KNITTING MACHINE	NUMBER
WARP-KNITTING MACHINE	2 BAR	8	32	KARL MAYER	2 BAR 32G	6
	3 BAR	23		KARL MAYER	2 BAR 36G	2
	4 BAR	1		KARL MAYER	3 BAR 32G	4
WARPING MACHINE	50/30	3	14	KARL MAYER	3 BAR 28G	19
	21/30	9		KARL MAYER	4 BAR 28G	1
	SPANDEX	2		KARL MAYER	<b>TOTAL</b>	<b>32</b>

SAECHANG builds a factory in ICHEON to make development of the region. Practicing our philosophy to think earth, so we planted pine trees which are eco-friendly with much oxygen discharge.

# TEXTILE MUSEUM

Donated by CEO Sung Ki-Hack

Donated by President Kim Ok-Kyun

In 2006, SAECHANG established a textile museum to memorize the founding philosophy to return the profit to the society  
**It is one and only textile museum open to public operated by a textile company in Korea.**  
In this museum, SAECHANG's operating history is recorded from 1979.

# EXHIBITION

SAECHANG participates in the annual textile exhibition.  
It is famous for its creative companies displaying only premium products centered on expensive fabrics.
