

UNIFI has been a global leader in manufacturing synthetic and recycled yarn since 1971. With a focus on sustainability, UNIFI is working today for the good for tomorrow.

Headquartered in Greensboro, North Carolina, UNIFI's employees are located across the globe with manufacturing and distribution facilities in Asia, Europe, North and South America.

UNIFI's recycled fiber REPREEVE®, is the World's number one, branded recycled performance fiber and has recycled over 40B plastic bottles with a goal to recycle 50B by the end of 2025.

REPREEVE®

40 Billion Plastic Bottles Recycled

Eco Facts Savings

REPREEVE® Fiber reduces water consumption and greenhouse gas emissions

- 6.08 Billion** gallons of water conserved
- 1.24 Billion** kgs of CO₂ emissions avoided

Transparent. Traceable. Certified.

FiberPrint® technology helps customers avoid false environmental claims with our U-TRUST® verification program.

REPREEVE offers innovative technologies that help to enhance your products

A.M.Y.®
Built in odor protection

Chillsense™
Instant cool to the touch

Inhibit®
Flame-retardant

Mynx®
All day UVA/UVB sun protection

ReComfort™
Yarn technology crafted to act and feel like spun yarns

Reflexx®
Flexible fabric

Resist2O
Water resistant

SmartDye™
Lower temperature dye for recycled polyester

Sorbtek®
Moisture Wicking

TruEffects
Visual effects built into the fiber

TruTemp365®
Year-round comfort in warm or cool weather

XS Cross-Section
Customizable technology with bounce back and comfort

Waterwise
Locked-in color that lasts
